EVENT OVERVIEW

The Ghana Young Generation in Nuclear (GhYGN) under the auspices of the African Young Generation Nuclear (AYGN) will hold the 3rd African Youth Nuclear Summit (AYNS) in Accra, Ghana on 25–29 October 2021, dubbed, *“The impact of nuclear science and technology applications on economic recovery in Africa post COVID-19 pandemic”*. The motto for this summit is *“Defining Africa’s Agenda 2063”*.

AYNS2021 will bring together young people and professionals across the continent, from the academia; nuclear research institutions, nuclear service providers, prospective and current operators as well as regulators to share, exchange ideas and network on issues related to nuclear science and technology.

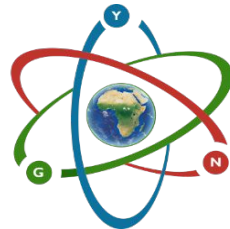

ABOUT US

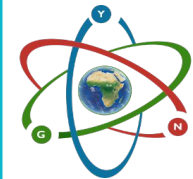

The AYGN and GhYGN are developed and diverse non-profit organizations that are committed to ensuring the youth engagement and support within the nuclear industry, and able to capitalise on numerous professional opportunities for careers, networking and development. The summit theme reflects a commitment to increasing youth participation while promoting the peaceful uses of nuclear technology within the African continent.
